Massachusetts Port Authority renews confidence in ENGIE Services at Boston Logan International Airport and Worcester Regional Airport

BOSTON, MA – November 2, 2016 – Massachusetts Port Authority (MassPort) has awarded a 3-year contract to ENGIE Services for the operations and maintenance (O&M) of baggage handling systems (BHS) at Boston Logan International Airport in East Boston, MA and Worcester Regional Airport in Worcester, MA. It is the third time that ENGIE has won this contract, making it a long-time service provider to MassPort.

As such, the local workforce of more than 50 experts and technicians employed by ENGIE Services will continue to perform operations and maintenance on more than 17,000 linear feet of conveyer belt for the BHS for three of the four terminals at Logan International (terminals B, C and E) as well as the terminal at Worcester Regional Airport. "We are proud to continue playing an instrumental role in ensuring smooth and efficient operations of these airports, and to contribute to providing passengers with a pleasant travel experience," says Adam Noyes, ENGIE Site Manager at Logan and Worcester.

A global leader in airport operations and maintenance, ENGIE is also supporting MassPort through two other contracts – the operation and maintenance of Passenger Boarding Bridges (PBB) and Heating, Ventilation and Air Conditioning (HVAC) systems. In addition to Boston Logan International and Worcester Regional airports, ENGIE also provides O&M services in
